

## Installing SPEED LEO in a drawer

Note: SPEED LEO can be mounted in a drawer only if it is shallower than the cabinet by at least 20 cm.

1. Use screws to fasten the mounting plate with latches to the inside of the drawer.
2. Make a hole in the drawer rear panel for the outflow hose.
3. Connect SPEED LEO to the central vacuum system with the use of an outflow hose.
4. Attach the hose with a vacuuming tip to SPEED LEO.
